NFL Week 9 Matchup Report

Who is set up for a good game, and who is not, in all 14 games of Week 9, from Sunday, Nov 8 through Monday, Nov 9. After the game pages come two rankings across the whole slate: the best overall matchups and the players most likely to score a touchdown.

HOW TO READ THIS

Method. Each player's per-game production is compared with how the opposing defense ranks against his position (backs, receivers, tight ends) and against the pass. Ranks are out of 32; #1 is the stingiest defense.

Source. Every number comes from the NFL dashboard (rhyman7.github.io/nfl), with stats through Week 8 and lines as of Nov 6. The report is built automatically after each data update.

Lines. Every game has a spread and total in the data.

Injuries. Source: ESPN injury report, as of Nov 6, 11:45 AM ET. Players listed out, doubtful, on IR or suspended are left out of the picks and named in the game read; questionable players stay in, tagged Q. Players who missed their team's last game are also left out. Schedule strength is not adjusted for.
