Longer bar, better rank. Ranks are out of 32. The edge goes to whichever side ranks at least 6 spots better; Rush Yds / Att is yards per rush attempt, gained by the offense and allowed by the defense; INT compares interceptions thrown by the offense with interceptions made by the defense. EPA / play (expected points added) and Success % use every pass and run play from nflverse play-by-play; for a defense, lower is better.
