NFL WEEK 9 · 2026

# NFL Week 9 Matchup Report

Who is set up for a good game, and who is not, in all 15 games of Week 9, from Thursday, Nov 5 through Monday, Nov 9. After the game pages come two rankings across the whole slate: the best overall matchups and the players most likely to score a touchdown.

## HOW TO READ THIS

**Method.** Each player's per-game production is compared with how the opposing defense ranks against his position (backs, receivers, tight ends) and against the pass. Ranks are out of 32; #1 is the stingiest defense.

**Source.** Every number comes from the NFL dashboard (rhyman7.github.io/nfl), with stats through Week 8 and lines as of Nov 5. The report is built automatically after each data update.

**Lines.** Every game has a spread and total in the data.

**Injuries.** Source: ESPN injury report, as of Nov 5, 6:38 PM ET. Players listed out, doubtful, on IR or suspended are left out of the picks and named in the game read; questionable players stay in, tagged Q. Players who missed their team's last game are also left out. Schedule strength is not adjusted for.

$10 on each priced pick, at the better of DraftKings and FanDuel (60 bets)

Each dot is one spot on that week's list, left to right from #1 to #10; green means he scored a rushing or receiving touchdown. "Expected" adds up the board's chances. Prices are each book's anytime-TD odds before kickoff; the better one is bold. Weeks 3–6 are rebuilt from the board's projections (the chances weren't saved then).
