Every number is this game's projection from the value model, not a season average. Team volume comes from each side's pace, the projected score and the opponent; player lines are the team's volume times the player's share and efficiency, adjusted for this defense. Dial ranks are out of the 28 teams playing this week. Quarterback lines assume he starts. Injury tags are from the official report. New: the new projections (playing time, depth charts, background and team pace, through a machine-learning last step), shown next to the current ones for running backs' rushing and running backs' and wide receivers' receiving; a dash where there is none. Under the rushing dials, New is the team's rushing yards with the new numbers where there are any.

For research and entertainment. Past results do not predict future results, and nothing here is betting advice.

Every number is this game's projection from the value model, not a season average. Team volume comes from each side's pace, the projected score and the opponent; player lines are the team's volume times the player's share and efficiency, adjusted for this defense. Dial ranks are out of the 28 teams playing this week. Quarterback lines assume he starts. Injury tags are from the official report. New: the new projections (playing time, depth charts, background and team pace, through a machine-learning last step), shown next to the current ones for running backs' rushing and running backs' and wide receivers' receiving; a dash where there is none. Under the rushing dials, New is the team's rushing yards with the new numbers where there are any.

For research and entertainment. Past results do not predict future results, and nothing here is betting advice.

Week 8: New England Patriots at Miami Dolphins

Sunday, Nov 1, 4:25 PM ET. Hard Rock Stadium
